PVC ELECTRICAL TAPE

0.2 mm x 19 mm x 20 m

Surely the very highest quality PVC insulating tape available anywhere! Unsurpassed strength and elasticity ensures a neat, safe and easy wrap. In addition it's weather resistant, has a whopping **10 kV** total dielectric strength plus outstanding long term adhesion. Supplied in useful re-usable plastic containers - the tape remains clean and free of fault causing filings!

HIGH TENSION SPLICING TAPE

0.5 mm x 19 mm x 10 m

This self fusing tape has excellent electrical properties. It is intended for use in the splicing of H.V. cable terminations and for corona-resistant insulation. Excellent resistance to weathering. Breakdown voltage is **23 kV per 0.5 mm**.

Supplied in a useful re-usable plastic container.

PRATLEY CABLE RETAINERS

Pratley Cable Retainers are designed to anchor cable (or piping) onto angle iron (see pictures). Each cable retainer has 4 possible fitting positions depending upon the cable size. They are offered in 2 sizes, Small and Large. Both Small and Large Cable Retainers are supplied in narrow and broad range to accommodate cable ties and steel straps respectively.

Uses:

- To secure small cables and instrument copper pipes in angle iron.
- Power cables running to standalone electrical equipment.
- Instrument cables and pipes feeding remote electronic equipment.
- Cables running to light fittings and switches.
- Utilizing existing steel structures in factories to support electrical cables and pipes.
- Securing conduit pipes on 25 mm and 50 mm angle iron.

Sizes:

- The Small Cable Retainers will secure 2 - 18 mm diameter cables on 25 mm angle iron.
- The Large Cable Retainers will secure 6 - 22 mm diameter cables on 50 mm angle iron.
